In the beginning, Dr.N.Gayathri, Assistant Professor, Department of English, Kongu Engineering College, Erode had given Effective Communication fosters trust with other that ability to listen attentively and embrace different points of view help others trust that are making optimal decisions for everyone in the group.

It was useful to the engineers to positive language to unite the team, be clear, deliberate and concise, show their appreciation for good work, carefully select language when critiquing, show genuine interest in conversation, set clear and achievable goals, avoid slang and colloquial language, be precise and to the point, ensure there is no room for misinterpretation, be measured in your responses, and think before they speak.

Good communication also improves relationship, both with employees and in student's personal life with friends and family members. Learning English can also facilitate cultural immersion while travelling. Many popular tourist destinations, such as the United States, Canada, Australia, and the United Kingdom, are English-speaking countries. others, and engage in meaningful conversations. Good communication skills involve active listening, speaking clearly, using appropriate language for the context, and understanding nonverbal cues. Bilingual people are better at retaining lists, sequences, names and directions. They are also more creative, perceptive and can concentrate for longer.

Learning a language requires four key skills: listening, speaking, reading, and writing. Learning goals and objectives generally describe what an instructor, program, or institution aims to do, whereas, a learning outcome describes in observable and measurable terms what a student is able to do as a result of completing a learning experience (e.g., course, project, or unit).

- Identify literary techniques and creative uses of language in literary texts.
- Adapt their texts to particular audiences and purposes.
- Articulate a thesis and present evidence to support it.
- Find, evaluate, and use appropriate bibliographic materials in their texts.
