Date: 03.04.2023

REQUISITION LETTER

Submitted to the Principal,

Sub: Requesting permission to conduct seminar - Reg.

The Department of Information Technology is planning to organize a Seminar on “RESEARCH AND APPLICATION DEVELOPMENT USING MACHINE LEARNING” in our campus. The proposed date of the Seminar is on **10th APRIL 2023**.

The Resource Person will be Mr.M.Karthick, UGC- Special Assistant Program, Department of Research Support –II, Research Fellow Periyar University, Salem. Hence we seek your goodse permission for the smooth conduct of the Seminar.

DEPARTMENT OF INFORMATION TECHNOLOGY

Topic: Seminar on “Research and Application Development Using Machine Learning”

Date: 10.04.2023

Mahendra College of Engineering, Department of Information Technology has organized a Seminar on “**Research and Application Development Using Machine Learning**” on 10.04.2023. The chief guest of this program was Mr.M.Karthick, UGC- Special Assistant Program. Departmental Research Support –II, Research Fellow Periyar University, Salem, and honored by Principal Dr. N.Mohanasundararaju. This Seminar was attended by 97 Students.

The Program started with the inaugural function at 10.30 AM on 10.04.2023. The guest speaker was heartily welcomed by Dr. T.Akila, Head of the Department, Department of Information Technology. Dr.N.MohanaSundaraRaju. Principal, Mahendra College of Engineering was felicitating the gathering. He addressed about the most Importance of Artificial Intelligence.

In the beginning, Mr.M.Karthick, UGC- Special Assistant Program. Departmental Research Support –II, Research Fellow Periyar University, Salem, had given Introduction on Importance and Benefits of AI is being used today across different industries from finance to healthcare. Weak AI tends to be simple and single-task oriented, while strong AI carries on tasks that are more complex and human-like.

Outcome of the Program:

- The students Understand about a wide variety of learning algorithms. Understand how to evaluate models generated from data. Apply the algorithms to a real problem, optimize the models learned and report on the expected accuracy that can be achieved by applying the models.
- Learn and understand fundamental up-to-date themes in the area of Computer Vision and Machine Learning
- Students have been equipped with a strong basics and innovative ideas in the domain of Artificial Intelligence and Machine learning

DEPARTMENT OF INFORMATION TECHNOLOGY

Topic: Seminar on “Innovation on Secure Cyber Computing and Block chain Technologies”

Date: 14.03.2023

Mahendra College of Engineering, Department of Mechanical Engineering has organized a Seminar on “Innovation On Secure Cyber Computing and Block chain Technologies” on 14.03.2023. The chief guest of this program was Mr.M.Rajkumar, Founder & CEO.Pargavan, Cyber Solution, Salem, and honored by Principal Dr. N.Mohanasundararaju. This Seminar was attended by 98 Students.

The Program started with the inaugural function at 10.30 AM on 14.03.2023. The guest speaker was heartily welcomed by Dr. T.Akila, Head of the Department, Department of Information Technology. Dr.N.MohanaSundaraRaju. Principal, Mahendra College of Engineering was felicitating the gathering. He addressed about the most Importance of start -up & Innovation Techniques.

In the beginning, Mr.M.Rajkumar, Founder & CEO.Pargavan, Cyber Solution, Salem, had given Introduction on Importance and Benefits of Cyber Computing and Block chain Technologies. He explains about main goals of computing like confidentiality, integrity and availability.

Then he shares how secure coding protects against secrets and business data from leaking into public domain. He clearly explains about Blockchain technology use in government banking and is the ongoing process of recording interbank payments in central bank records.

OUTCOMES OF THE PROGRAM:

Students learned about the emerging technologies used in corporate world. They clearly know about this topics distributed ledger, the consensus mechanism, and the smart contracts. Public block chains, private block chains, consortium block chains and hybrid block chains.

Students Know about the Blockchain increases trust, security, transparency, and the traceability of data shared across a business network — and delivers cost savings with new efficiencies. Blockchain for business uses a shared and immutable ledger that can only be accessed by members with permission and future scope majorly lies in the field of Cybersecurity. Although the Blockchain ledger is open and distributed, the data is secure and verified. The encryption is done through cryptography to eliminate vulnerabilities such as unauthorized data tampering.

WORKSHOP ON "Process Design and Development ideas in Android that Transform the Lives"

Date: 02.04.2023

Report

Department of Computer Science and Engineering at Mahendra College of Engineering, Salem Campus, Minnampalli, Salem organized the Workshop on "**Process Design and Development ideas in Android that Transform the Lives**" Program with participation of Students and Faculty members from CSE.

Program started at 09.30 AM on 31.03.2023 at Seminar Hall in IT Block. The welcome address was given by Dr.R.Reka, Associate Professor, CSE, and then short introduction about the guest of the day Ms. C.Chitra, Odugaa Tech, Salem. She strive to create a better world by igniting the creativity in technical aspects of "Process Design and Development ideas in Android that Transform the Lives" by inspiring with real world problems and step by step approach towards solution.

Through this interactive session, we have to learn about development of android app process for comprises design, creation, development, and post-development. And also to learn about develop of a successful Android app a robust and fail-proof mobile app development process.

Felicitation:

Dr. N. Mohanasundararaju, Principal felicitated the gathering with warm welcoming.

Honoring the Chief Guest:

As a token of gratitude, Dr. N. Mohanasundararaju, Principal, Mahendra College Engineering presented a shawl and memento to the Chief guest.

Vote of Thanks:

The Vote of thanks was delivered by Ms. S.Divya, Third year Student, Department of Computer Science and Engineering. The seminar was ended with the national anthem

Outcome of the Programme:

This hands-on lab practice is intended to help students develop a better understanding of security vulnerabilities in content providers for Android applications. Working with Android App Development Tools and Frameworks.

The students learned Android build system's toolkit and how to use to build, test, run and package android apps. The build system can run as an integrated tool from the Android Studio menu and independently from the command line. Student know about how to Install and configure Android application development tools. Design and develop user Interfaces for the Android platform. Save state information across important operating system events. Apply Java programming concepts to Android application development.

REQUISITION LETTER

Submitted to the Principal,

Sub: Requesting permission to conduct seminar - Reg.

The Department of Electrical and Electronics Engineering is planning to organize an online Seminar on "Techtalk- IOT" in our campus. The proposed date of the Seminar is on **15th March 2023**. The Resource Person will be Dr. P. Shanmugavadivu, Professor & HOD, Department of Computerscience & Applications, Gandhigram Rural Institute- Deemed to be University, Gandhigram- 634 302. Hence we seek your goodself permission for the smooth conduct of the Online Seminar.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

SEMINAR ON "TECHTALK- IoT"

Date: 17.03.2023

REPORT

Department of Electrical and Electronics Engineering at Mahendra College of Engineering, Salem Campus, Minnampalli, Salem organized the Seminar on "Techtalk- IoT" Program with participation of Students and Faculty members from EEE & CSE.

Mr.S.Thangapandiyan Assistant Professor, EEE department welcome the gathering and resource person **Dr. P. Shanmugavadivu**, Professor & HOD Department of Computer science & Applications, Gandhigram Rural Institute- Deemed to be University, Gandhigram- 634 302 gave excellent inputs to the students in the title "**Techtalk- IOT**" The resource person explained about the importance of IOT. Students learned network of physical objects—"things"—that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet III and IV Years of CSE, EEE department students throughout the session. Total number of students participated in this event was 64 students and 5 faculty members from EEE department.

Dr.M.S.Saravanan, Associate Professor, Department of Electrical and Electronics Engineering, Mahendra College of Engineering delivered vote of thanks. We thank our management, Principal, all the faculty members and students for extending their support for the successful completion of the event.

Mahendra Salem Campus,
Minnampalli, SALEM-636 106

Outcome of the Programme :

Through this programme, the students Learn IoT technologies and can also know the collaboration and communication between technologies, knowledge about collaborate on projects and share ideas and resources in real time. They know the facilities about the efficiency and safety, monitoring remote and hard-to-access equipment, automating processes, reducing the environmental impact of operations, ensuring equipment. The use of IoT technology in surveillance can help to improve security standards in the organization and also help to track any suspicious activity. More advanced technologies. Student will understand the collective network of connected devices and the technology that facilitates communication between devices and the cloud, as well as between the devices themselves.

REQUISITION LETTER

Submitted to the Principal,

Sub: Requesting permission to organize Webinar on "**Application of SDR and Analog Discovery Kit**" - Requisition - Reg.

The Department of Electronics and Communication Engineering is planning to organize a Webinar on "**Application of SDR and Analog Discovery Kit**" in our campus. The proposed date of the webinar is on **2nd MARCH 2023**. The Resource Persons will be **Mr. K.R ABHISHEK**, Application Engineer, Starcom Information Technology Limited, Mahatma Gandhi Rd, KG Halli, Shanthala Nagar, Ashok Nagar, Bengaluru, Karnataka 560001, and **Mr. MOHAMMED IRFAN BASHA**, Product Engineering, Starcom Information Technology Limited, Mahatma Gandhi Rd, KG Halli, Shanthala Nagar, Ashok Nagar, Bengaluru, Karnataka 560001. Hence we seek your goodself permission for the smooth conduct of the Seminar.

RESOURCE PERSON PROFILE

Mr. K.R ABHISHEK,

Application Engineer, Starcom Information Technology Limited, Bengaluru
Mail Id: Abhishekstarcom2019@gmail.com

Mr. K.R ABHISHEK, Application Engineer, Starcom Information Technology Limited, Mahatma Gandhi Rd, KG Halli, Shanthala Nagar, Ashok Nagar, Bengaluru, Karnataka. Experienced Application Engineer with a demonstrated history of working in the information technology and services industry. Skilled in Tektronix, Texas Instruments Products Strong sales professional with a Bachelor of Engineering - BE focused in electronics and communication from Sridevi institute of Engineering and technology. Skills are Proficiency software's: CCS IDE, TINA Design Suite, Keil Experience in working with GNU Radio Proficiency in C Proficient with MS Office Suite Experience in working with Matlab Simulink for TI processors (C2000 & C6000) Experience in working with Tektronix, Rigol, Diligent Test and Measurement Instruments Experience in conducting product demonstrations and training sessions for customers Experience in designing and implementing complex technical solutions for clients Proficient in troubleshooting and resolving technical issues related to hardware and software applications Ability to work independently and as part of a team, with a strong sense of responsibility and accountability. Application Engineer Jun 2019 – Present Provide technical expertise through high-quality technical presentations, product demonstrations Coordinating with Sales Team in Understanding customer requirements and suggest suitable device Provide offsite technical support to customers by (Troubleshooting technical issues of customer) through Email or Phone Calls or Direct visit in critical case Preparing Manuals and Technical documentation for products Developing Demo codes to help Customers Quickly start working on Supplied Products and Generate opportunities for repeat Business Read specifications and worked with other departments to prepare a quotation that could transition to a clarified order for ease of downstream processing Responsible for creating Bills of Materials, Evaluation and Testing of the instrument Prepared and submitted formal proposals for Funding Agency Capable of designing Product/System according to client requirement Regional point of contact for technical clarifications pre & post sales. EDUCATION qualification is Bachelor of Engineering in Electronics and communication at Sridevi Institute of Engineering & Technology, Tumkur, India.

RESOURCE PERSON PROFILE

Mr. MOHAMMED IRFAN BASHA,
Product Engineering, Starcom Information Technology
Limited, Bengaluru.

Mail id: irfanbasha.starcom@gmail.com

Mr. MOHAMMED IRFAN BASHA, Product Engineering, Starcom Information Technology Limited, Mahatma Gandhi Rd, KG Halli, Shanthala Nagar, Ashok Nagar, Bengaluru. Product Engineering Professional with over 30 years of experience on product development and software services. Experience is Chief Technology Officer in Starcom Information Technology Limited, Bengaluru, and VP Technical in ABK Software Services Pvt Ltd Bengaluru. Education is Indian Institute of Science (IISc), M.Tech, Instrument Technology and Jawaharlal Nehru Technological University, B.Tech, Electronics and Communication Engineering.

Skills are Management, Leadership, and Team Management. He is a very pleasing personality with tremendous Technical and people management potential. He is a role model for a lot of managers in the company and outside. Among all his specialities. I admire the most is his ability to learn anything in minutes and provide a solution to the most difficult issue in a moment. He can analyze the issue in minutes and provide the solution in seconds.

Event Report

1. Name of the Department : Electronics and Communication Engineering
2. Program/Activity Name : Application of SDR and Analog Discovery Kit
3. Academic Year : 2022-23
4. Duration of the Activity (in mins) : 90 Minutes
6. Start Date : 02.03.2023
7. End Date : 02.03.2023
8. Number of Student Participants : 74 Nos.
9. Number of Faculty Participants : 9 Nos.
10. Number of External Participants : Nil
- (if any)
11. Expenditure Amount, if any : Nil
12. Mode of Session delivery : Google Meet
13. Objective of the program :
(Within 100 words)

An SDR performs significant amounts of signal processing in a general purpose computer, or a reconfigurable piece of digital electronics. The goal of this design is to produce a radio that can receive and transmit a new form of radio protocol just by running new software.

Software-defined radios have significant utility for cell phone services, which must serve a wide variety of changing radio protocols in real time. The hardware of a software-defined radio typically consists of a superheterodyne RF front end which converts RF signals from and to analog RF signals, and analog to digital converters and digital to analog converters which are used to convert digitized intermediate frequency (IF) signals from and to analog form, respectively. Software-defined radio can currently be used to implement simple radio modem technologies. In the long run, SDR is expected to become the dominant technology in radio communications.

Analog Discovery 2 is a USB oscilloscope, logic analyzer, and multi-function instrument that allows users to measure, visualize, generate, record, and control mixed-signal circuits of all kinds. Despite our competitive oscilloscope price, we never compromise on quality. Developed in conjunction with Analog Devices and supported by Xilinx University Program, this test and measurement device is small enough to be a pocket oscilloscope, but powerful enough to replace a stack of lab equipment, providing engineering professionals, students, hobbyists, and electronic enthusiasts the freedom to work with analog and digital circuits in virtually any environment, in or out of the lab. The analog and digital inputs and outputs can be connected to a circuit using simple wire probes; alternatively, the Analog Discovery BNC Adapter and BNC probes can be used to connect and utilize the inputs and outputs.

14. Benefit of the program (Within 150 words):

The event was organized to help students to have practical exposure to:-

- A direct benefit of a general SDR allocation, and indeed the purpose of such an allocation under the Fund's Articles of Agreement, is to supplement existing reserve assets to help meet a long-term global need.
- Software-defined radios can be reconfigured "on-the-fly," i.e., the universal communication device would reconfigure itself appropriately for the environment. It could be a cordless phone one minute, a cell phone the next, a wireless Internet gadget the next, and a GPS receiver the next.
- Software-defined radios can be quickly and easily upgraded with enhanced features. In fact, the upgrade could be delivered over-the-air.
- Software-defined radios can talk and listen to multiple channels at the same time.

- New kinds of radios can be built that have never before existed. Smart radios or cognitive radios (CRs) can look at the utilization of the RF spectrum in their immediate neighborhood and configure themselves for the best performance.
- Analog Discovery 2, which is developed in conjunction with Analog Devices, is a multi-function test and measurement (T&M) tool. It can be configured to work as traditional instruments such as an oscilloscope, spectrum analyzer, network analyzer, power supply, signal generator, and so forth.

15. Faculty Coordinator

:

Dr.P.N.Palanisamy, Asst. Prof/ECE

OUTCOMES OF THE PROGRAM:

Workshop on "PYTHON PROGRAMMING"

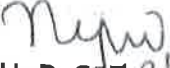

Mahendra College of Engineering, Department of Computer Science and Engineering have organized a Workshop on "PYTHON PROGRAMMING" on 02nd and 3rd Feb 2023. The chief guest of this program was Mr.K.C.Gopi Krishna, Regional manager, Imagecon, Salem and honored by Principal Dr. N.MohanaSundaraRaju. This Workshop was attended by 516 students and 2 Faculty members of CSE.

The Program started with the inaugural function at 09.30 AM. The guest speaker was heartily welcomed by Dr. H. Lilly Beulah, Head of the Department, Department of Computer Science and Engineering. Dr. N.MohanaSundaraRaju. Principal, Mahendra College of Engineering was felicitating the gathering. He addressed about education has been regarded as the most significant instrument for python programming.

In the beginning, Mr.K.C.Gopi Krishna, Regional manager, Imagecon speaker, Salem. Introduction on Importance and Benefits of Python Programming. He demonstrates how to write program using python and other libraries. In this Workshop helps the Students to building a programming, during the session, the students and Faculties were interacted with the chief guest and shown their interest in the topics related to their python programming. The vote of thanks was given by Mr.C.Vinoth, Assistant Professor, and Department of computer science and engineering and presented a small token of appreciation to our valuable guests.

Outcome of the Programme:

Students will become technology-oriented with the knowledge and ability to develop creative solutions, and better understand the effects of future developments of computer systems and technology on people and society as a whole. Acquire some development experience within a specific field of Computer Science, through project work.

Gain ability to apply knowledge of Computer Science to the real-world issues. Get familiar with current research trends in various fields of Computer Science. Use creativity, critical thinking, analyses and research skills.

Get prepared for placement by developing personality and soft skills. Gain ability to communicate scientific information in a clear and concise manner. Build up programming, analytical and logical thinking abilities. Know the recent developments in IT, future possibilities and limitations, and understand the value of lifelong learning. Get an ability to participate in debates, discussions in the society constructively. Gain management skills to cater the corporate sector.

Mr.C.Devaraju
Managing Director,
Odungatech,
Salem

Mail ID: raju.devadirector@gmail.com

Mr.C.Devaraju, Managing Director, Odungatech, Salem. Post-translational modification (PTM) of proteins by the covalent addition of functional groups that include phosphorylation, glycosylation, ubiquitination, nitrosylation, methylation, acetylation, lipidation and proteolysis and these are very important crucial modifications that brings every biological responses such as functional diversity of the proteins. Therefore, identifying and understanding PTMs becomes a critical role in the study of cell biology and to develop the treatment strategies for various disease treatment and prevention. Educational Qualification is M. Sc. in Biochemistry, B. Sc. in Chemistry, Zoology, and Seri-Culture. Additional Qualification is a certificate course on "Care, Breeding and Management of Laboratory Animals" from Central Animal Research Facility, at NIMHANS, Bangalore, A certificate course on "Bioprocess Engineering" from Proficiency Programme at Indian Institute of Science. Research Experience: Protein, Isolation, Purification, Characterization, Enzyme assays/Kinetics, Developing the primary neuronal cell culture, the kinase assay / receptor binding studies, Amino acid analysis of clinical samples by OPA derivitisation by HPLC, Technology Readiness Level (TRL). He published more than 25 papers in reputed journals. He got Awards in Adhyapak Bhushana Award- By Karnataka Rajya Mahavidyalaya Shikshak Sangh (R) and Karnaka Rajya Madhyamik Shikshak Sangh (R).

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

**Expert Talk on “Process of Innovation Development, Technology Readiness Level
(TRL) Commercialisation of Lab Technologies & Tech-Transfer”**

Mahendra College of Engineering, Department of Computer Science and Engineering have organized an Expert talk on “Process of Innovation Development, Technology Readiness Level (TRL) Commercialisation of Lab Technologies & Tech-Transfer” on 24th January 2023. The chief guest of this program was Mr.C.Devaraju, Managing Director, Salem and honored by Principal Dr. N.MohanaSundaraRaju. This Expert talk was attended by 81 students and 4 Faculty members of CSE.

The Program started with the inaugural function at 09.30 AM. The guest speaker was heartily welcomed by Dr. H. Lilly Beulah, Head of the Department, Department of Computer Science and Engineering. Dr. N.MohanaSundaraRaju, Principal, Mahendra College of Engineering was felicitating the gathering. He addressed about education has been regarded as the most significant instrument for Mobile Computing System Applications. In the beginning, Mr. C.Devaraju, Managing Director, Salem speaker, introduction on Importance and Benefits of Program. He explained the process of the innovation development and its stages. Citing an example of final year project and keeping users in mind at every stage of process, Er. Faldesai, elaborated the process of Technology Readiness and commercialisation of the technology, During the session, the students and Faculties were interacted with the chief guest and shown their interest in the topics related to their Prototyping Lab in Innovation Development & Technology Readiness. The vote of thanks was given by Ms.A.Indhuja, Assistant Professor, and Department of computer science and engineering and presented a small token of appreciation to our valuable guests.

Outcome of the Programme:

Through the programme, the students understand the role of Prototyping Lab in Innovation Development & Technology Readiness. They can participate to avail various Schemes like Virtual Innovation Register, Provisional Patent Scheme, Prototyping Grant Scheme of Goa State Innovation Council and boost their innovation and commercialize their technology. The main objective of this Programme was to discuss –Generating Ideas, capturing ideas, beginning innovation, developing a business- effectiveness strategy, Applying Business Improvement, and Decline.

Resource Person Profile

Madhuri Gopal

Senior Product Manager at Open Weaver
Mail ID: Gopalmadhuri2015@gmail.com

Madhuri Gopal has over six years of work experience in various roles. In 2014, they began their career as an IT Analyst at Cognizant Technology Solutions. Madhuri then worked as a Technology Innovation Analyst Intern at Tata Consultancy Services Ltd. In 2016, they moved to Cognizant as a Product Manager & Cloud Manager. In 2018, they worked as a Project Manager - Platform, Big Data, Analytics, Strategic Initiatives at Thryve Digital Health LLP. In 2019, they became a Mentor and Alumni for Carnegie Mellon Career and Professional Development Centre (CPDC), a Mentor for AlphaLabgear and CEGNAA, and a Deputy Project Manager at Deloitte. Currently, they are working as a Senior Product Manager at OpenWeaver and a Product Management Specialist at CCCL.

Madhuri Gopal has a diverse education history. Madhuri obtained a Bachelor of Engineering (B.E.) degree in Computer Science from College of Engineering, Guindy from 2007 to 2011. Madhuri also attended D.A.V Girls Senior Secondary School from 2007 to 2011, where they studied Mathematics and Computer Science. In 2015, they earned a Master's degree in Engineering & Technology Innovation Management from Carnegie Mellon University. In 2018, they obtained a Master of Business Administration - MBA from the University of Virginia. Additionally, they have obtained numerous certifications from KPMG and LinkedIn, including a Lean Six Sigma Green Belt Certification from KPMG in 2022 and Cert Prep: Project Management Professional (PMP) from LinkedIn in 2018.

SEMINAR ON "MACHINE LEARNING IN BUSINESS INTELLIGENCE"

Date: 08.12.2022

Report

Department of Computer Science and Engineering at Mahendra College of Engineering, Salem Campus, Minnampalli, Salem organized the Seminar on "Machine Learning In Business Intelligence" Program with participation of Students and Faculty members from CSE & IT.

Program started at 10.30 AM on 05.12.2022 at Seminar Hall in IT Block. The welcome address was given by Dr.R.Reka, Associate Professor, CSE, and then short introduction about the guest of the day Ms.Madhuri Gopal, Senior Product Manager, OpenWeaver-Chennai. She strive to create a better world by igniting the creativity in technical aspects of "Machine Learning In Business Intelligence" by inspiring with real world problems and step by step approach towards solution.

Through this interactive session, we have a level playing field for students to explore their acumen and test their boundaries of profession in finding a solution to a real life problem about Machine Learning and Business Intelligence which is connected with the society. In this way we help them to change their thought process and design thinking process which the industry requires.

Outcome of the Programme :

We have a level playing field for students to explore their acumen and test their boundaries of profession in finding a solution to a real life problem about Machine Learning and Business Intelligence which is connected with the society. In this way we help them to change their thought process and design thinking process which the industry requires. students should be able to,

- Develop an appreciation for what is involved in Learning models from data
- Understand a wide variety of learning algorithms
- Understand how to evaluate models generated from data

Topic: Seminar on “Real Time Technology of IoT in Healthcare – Start-Up Opportunities”

Date: 23.09.2022

Mahendra College of Engineering, Department of Biomedical Engineering has organized a Seminar on “Real Time Technology of IoT in Healthcare – Start-Up Opportunities” on 23.09.2022. The chief guest of this program was Mr.K.Devaraju, Co-founder & Senior Trainer, Odugatech, Salem and honored by Principal Dr. N.Mohanasundararaju. This Seminar was attended by 130 Students.

The Program started with the inaugural function at 10.30 AM on 23.09.2022. The guest speaker was heartily welcomed by Dr.S.Rajalaxmi, Head of the Department, Department of Biomedical Engineering. Dr.N.MohanaSundaraRaju, Principal, Mahendra College of Engineering was felicitating the gathering. He addressed about the most Importance of Internet of Things.

In the beginning, Mr.K.Devaraju, Co-founder & Senior Trainer, Odugatech, Salem, had given Introduction on Importance and Benefits of IoT is being used today across different industries from finance to healthcare. Weak IoT tends to be simple and single-task oriented, while strong IoT carries on tasks that are more complex and human-like.

Outcome of the Program:

- The students Understand about a wide variety of learning algorithms. Understand how to evaluate models generated from data. Apply the algorithms to a real problem, optimize the models learned and report on the expected accuracy that can be achieved by applying the models.
- Learn and understand fundamental up-to-date themes in the area of Computer Vision and Internet of Things.
- Students have been equipped with a strong basics and innovative ideas in the domain of Internet of Things in Healthcare field.

RESOURCE PERSON PROFILE

Er. V. Sasikumar,

Email: mikrosunprojects@gmail.com

Er. V. Sasikumar has 16 years of experience in the field design. Sasikumar is basically an Engineer by profession, worked as a corporate trainer for more than 10 years in Embedded domain at Bangalore and Chennai. He trained more than 10,000 Employees & 1 lakh + Students in his entire carrier. Started his carrier as an Embedded software Engineer and currently owning his Training Institute in Salem in the name of Mikrosun Technology. Sasi has represented more than 500+ guest Lecture and workshop based awareness programs for Engineering students, Corporate Employees, Polytechnic level students etc., all over India from 2007 to till date.

9.	Beneficiary -Students- (branch and year) / Staffs- (Nos and Department)	Students -51 (III & IV year Mechanical Engineering) Faculty- 2 (Mechanical Engineering)
10.	Description about the Programme	A lean startup is a method used to found a new company or introduce a new product on behalf of an existing company. The lean startup method advocates developing products that consumers have already demonstrated they desire so that a market will already exist as soon as the product is launched. As opposed to developing a product and then hoping that demand will emerge.

EVENT REPORT

Seminar on

"Lean Start-up & Minimum Viable Product"- Mentoring Session" (Entrepreneurship)

Date: 24.08.2022

Mahendra College of Engineering, Department of Mechanical Engineering have organized a seminar on **"Lean Start-up & Minimum Viable Product"- Mentoring Session" (Entrepreneurship)** on 17th August 2022. The chief guest of this program was **Er.V.Sasikumar**, Founder, Mikrosun Technology. This Seminar was attended by 42 third year and final year students and 2 Faculty members of department.

The Program started with the inaugural function at 11.30 AM. The gathering was heartily welcomed by **Dr.M.Haridass**, Head of the Department, Mechanical Engineering. **Mr.P.Gopi**, Associate Professor, Department of Mechanical Engineering introduced about the Chief Guest.

In the beginning, speaker gave a brief introduction on various opportunities for an entrepreneur

Outcome of the Seminar:

Students understand the benefit of lean startup is short development cycles mean a quicker product market fit and the Lean Startup method streamlines business activities and allocates financial resources efficiently

During the session, the students and Faculties were interacted with the chief guest and shown their interest in the topics discussed. The vote of thanks was given by **Mr.S.Rameshkumar**, Assistant Professor, and Department of Mechanical Engineering and presented a small token of appreciation to our valuable guest.

(if any)
11. Expenditure Amount, if any : Nil
12. Mode of Session delivery : Google Meet
13. Objective of the program :
(Within 100 words)

AI and ML course aims to indulge knowledge in not only the core technologies such as artificial intelligence, data mining and data modelling and also make ready students expertise in thrust areas such as machine learning, and deep learning. Students with this course can gain thorough knowledge in: Intelligent Systems, Machine Learning, Deep Learning, Reinforcement Learning, Natural Language Processing, and Technologies for machine learning with cloud computing, big data analytics Reasoning, Internet of Things, Statistical Learning and visualization skills.

A UNIT OF MAHENDRA EDUCATIONAL TRUST

The goal of artificial intelligence (AI) and machine learning is to program computers to use example data or experience to solve a given problem. Many successful applications based on machine learning exist already, including systems that analyse past sales data to predict customer behaviour (financial management), recognize faces or spoken speech, optimize robot behaviour so that a task can be completed using minimum resources, and extract knowledge from bioinformatics data.

14. Benefit of the program (Within 150 words):

The event was organized to help students to have practical exposure to:-

- To provide skill based education to master the students in problem solving and analytical skills to enhance their niche expertise in the field Artificial Intelligence and Machine Learning.
- To explore opportunities for skill development in the application of Artificial Intelligence and Machine learning among rural and under privileged population.
- Transform professionals into technically competent through innovation and socially responsible.
- To promote research based projects and activities among the students in the emerging areas of Artificial Intelligence and Machine Learning.
- To impart quality and value based education and contribute towards the innovation of computing system, data science to raise satisfaction level of all stakeholders.

Webinar on “Issues and Opportunities in Research Processing for Artificial Intelligence Applications”

Date: 06.07.2022

Mahendra College of Engineering, Department of Electronics and Communication Engineering have organized a Webinar on “Issues and Opportunities in Research Processing for Artificial Intelligence Applications” on 06.07.2022. The chief guest of this program was Dr.V.Ganapathy, Professor Emeritus, Saveetha School of Engineering, Saveetha University, Chennai and welcomed by Principal Dr. N.MohanaSundaraRaju. This Webinar was attended by 93 students and 9 Faculty members of ECE.

Inauguration:

The inauguration started at 10:00 AM on 06.07.2022 through the online mode. The webinar started with prayer song in the presence of Guest of honour, Principal and Heads of various Departments, Faculties and students.

The Welcome address:

The Welcome address was given by Dr. M.Suganthi, Head of the Department, Electronics and Communication Engineering. She delivered the welcome address by welcoming the chief guest, Dr.V.Ganapathy, Professor Emeritus, Saveetha School of Engineering, Saveetha University, Chennai. She also welcomed Dr. N. Mohanasundararaju, Principal and Heads of various departments, faculty members and students from various departments.

Keynote Address:

The chief guest, Dr.V.Ganapathy, explained the Issues and Opportunities in Research Processing for Artificial Intelligence Applications. This created awareness and opportunity in research processing for AI among the participants and the session was eye-opening for most of the participants.

Vote of Thanks:

The Vote of thanks was delivered by Mr.D.Balaji, AP/ECE, Department of Electronics and Communication Engineering. The webinar was ended with the national anthem.

Outcome of the program

The event was organized to help students to have practical exposure to:-

- To provide skill based education to master the students in problem solving and analytical skills to enhance their niche expertise in the field Artificial Intelligence and Machine Learning.
- To explore opportunities for skill development in the application of Artificial Intelligence and Machine learning among rural and under privileged population.
- Transform professionals into technically competent through innovation and socially responsible.
- To promote research based projects and activities among the students in the emerging areas of Artificial Intelligence and Machine Learning.
- To impart quality and value based education and contribute towards the innovation of computing system, data science to raise satisfaction level of all stakeholders.
